Goodfellow, Soda Water Fountain licence; John Wymerskirch was granted a Billiard Table licence, also licence for a Soda Water Fountain.

The Council adjourned to meet on Monday, evening next.

The following has been received by the Crown Timber Agent of this place from the Department of Interior: "Pursuing to your letter of the 6th of May last, to the Commissioner, in relation to the timber at the place known as 'The Pines,' I am directed to say that you may issue permits without competition to persons applying for them, to cut up and carry away the fallen timber at the above mentioned place, paying therefor dues at the rate of ten cents per cord for cutwood and on all other products at the rate of 5% ad valorem, provided the applicant binds himself to pile together in heaps the tops and branches not used, and not to leave them scattered through the bush, and that he will do this to the satisfaction of the Department."

Mr. W. S. Hodgins, Superintendent of Agencies, of the Ontario Mutual Life Assurance Company of Waterloo was in town last week. He is visiting all the principal points in the Territories and appointing agents to represent The Ontario which is one of Canada's oldest and best companies. The Ontario is now in its 22nd year of business, and has a first-class reputation for security, cheapness and good management. It does a large business in the Dominion, and has agencies from Halifax to Vancouver. Mr. Hodgins is very favorably impressed with the Territories, and thinks there are hundreds of farmers in Ontario who could greatly improve their condition of life by moving at once to the banks of the Saskatchewan. He will be able to report very favorably on his observations while in Prince Albert. Mr. J. F. A. Stull will represent the Ontario Life in this place.

A page of the last issue of the Dominion Illustrated presents a complete group of portraits of the Canadian Biscay team of 1891, with a brief sketch of the shooting record of each in past years. It is timely and interesting. The visit of the Prince and Princess of Wales to the Canadian exhibit at the Royal Agricultural Fair, Doncaster, Eng., is also made the subject of a page of illustrations.

From the Maritime provinces there is a view of Windsor, N.S., in 1840, one of the Studeley Quoit Club, Halifax, and a portrait and biographical sketch of F. Blake Crofton, the well known Nova Scotia litterateur. There is a portrait and interesting biographical sketch of the late J. Beaufort Hurlbert, L.L.D., widely remembered in connection with the Anti Jesuit agitation. St. George's cathedral, Kingston; interior of Fort Henry, Kingston; scenes at Tadoussac Bay and Cacouna; the famous cathedral at Rheims, France, perhaps the finest specimen of Gothic architecture in existence, are among other subjects of illustration in this charming number. The literary contents are not less interesting.

MONTREAL LAKE TRAIL.

Our correspondent "Fair Play," whose letter we publish in another column, takes far too narrow a view of the question he has undertaken to discuss. The object of opening up and repairing northern trails is not for the particular benefit of the H. B. Co., nor is the interests of freighters alone the consideration. It is for the purpose of developing an important trade. In connection with the trail spoken of a valuable trade will not only be opened up, but some valuable country, according to the evidence of competent men, will be made easy of access and settlement will follow. We quite agree with our correspondent that many trails in the more thickly settled districts require looking after, but he should not forget that where many settlers exist, statute labor can easily overcome such difficulties as the one he complains of. Realizing that good country is found north of the river, and approving of expenditures already made on certain trails leading through it, he should as an interested settler see the wisdom of opening other avenues for the purpose of centering trade where it cannot possibly do otherwise than benefit the surrounding country. By a mutual understanding, we believe that for the purpose of public work Messrs. Betts and Plaxton have divided their district, and we have no doubt that the gentleman having the supervision of this particular trail will, after having had his attention called to the importance of its being looked after, see the wisdom of taking immediate action, and by fall many valuable improvements will have been made. We further believe that after a careful consideration of such expenditures "Fair Play" will realize that they are in the interests of not only a few individuals but that the whole district will be benefited.

THE BOARD OF TRADE IS MOVING.

The action of the Board of Trade in petitioning for a subdivision of

townships 49 and 50 in each of the ranges, will no doubt attract the serious attention of the Government and hasten the carrying out of a tacit understanding come to over a year ago on this question. The Government must thoroughly understand the importance of this northern country to Prince Albert. By the report of Mr. Klotz, they are fully informed of the value of the lands, and they should not forget that the action of our citizens in spending large amounts of time and money for the purpose of calling outside attention to the valuable locations that here await the settler, entitles us to the most liberal consideration in the matter of surveys. The Government can hardly hesitate to assist any people who show the active energy in immigration matters which for years has been a distinguishing feature of Prince Albert. We confidently expect to hear within a few days that orders for the immediate survey of this valuable track of country has been issued, and next season will see it largely settled.

Mr. Biggar, representing the Electric Light Company, is hard at work making final arrangements for lighting the town. Contracts are being entered into, subject to the light being in operation by the 1st of October. Step by step our town is advancing. The telephone system should also be in operation by the above date.

Medicine Hat has at last decided to try and get abreast of the times. A public agitation is now going on in that burgh with a view to its becoming an important town. We can hardly understand how it has managed to pull through for so long a time without the benefits of a municipal organization.

Two By-laws, one for seven thousand and the other for ten thousand dollars, carried by large majorities on Saturday last. The Council are to be congratulated on this very decided confidence shown by ratepayers in their ability to undertake and successfully carry out the expenditure of so large a sum of money as the vote involves. The Council should start operations at once, now that the necessary authority has been secured. The season for work is advancing, and each week's delay means additional cost of labor. We congratulate residents of the town on their good judgment and energy. In a short time mud will have no terror for the pedestrian on our streets, and our citizens can attend a public meeting without fear of suffocation.

In its present shape the new N. W. T. Act must in a large degree be satisfactory to the people. That some suggestions of a radical nature will be offered while the bill is passing through its several stages, must be looked for, but few expect that additional clauses of any serious nature will be added to the bill as it now stands. The demands of the late Assembly have been largely acceded to, and members of the new Legislature will find themselves clothed with the responsibilities which their predecessors unanimously agreed to as being necessary for the purpose of carrying on the government of the country. The public will naturally regret that the educational provisions of the old act are retained in the new. Public opinion demanded that this important question should be placed under local control, and circumstances certainly justify the demand. Sooner or later so reasonable a request must

be granted. The longer the Government delay the more serious will its final settlement become.

It is unfortunate that after long years of public service, during which time Sir Hector Langevin has possessed the confidence of nearly all classes that he should now, in his old age, and when a hitherto robust constitution is failing him, be confronted with the most serious charges in connection with the department over which he has had control. All fair minded men will hope that the strong assertion of innocence which he has made, will be fully borne out by the tedious investigation now going on. It is only fair that judgment should be suspended until such time as the finding of the committee is announced. Certain political opponents who were painfully disappointed, at the results of the late election, seem to have decided that no mud is too deep in which to plunge, and notwithstanding that their victim is on trial before an important committee composed of leading Members of Parliament, they use their party organs with a view of having the case pre-judged and a distinguished Canadian hounded out of political life. Were they honest or fair minded they could afford to wait results, they certainly have had ample assurance both by acts and utterances of members of the Government, that the whole truth must be revealed, and if found guilty the penalty must be paid no matter what position the guilty party may occupy. The Government refuse however to condemn their old colleague before his trial has been concluded, and Canadians generally will approve such action. They have been educated to believe in fair play and will tolerate nothing short of it.

RED DEER HILL.

The farmers here are busy putting up for the winter, and are getting along with it, although the hay is not as plentiful as in former years, owing chiefly to the growth of foxtail or "skunk" grass, which proves very injurious when fed to cattle and horses.

Robert Giles has purchased that quarter section formerly owned by Jockey Donald, and has ploughed a considerable quantity of ground on it this season. He is at present suffering from a strain that he has given one of his horses.

John Flett was in from Stony Creek reports the crops as very fair.

Miss M. Cherry has been visiting at the Hill for the past few days. Cullen also of your town paid a visit.

Major Hoey, M.L.A., called a short time ago and informed us that an election of members for the N. W. L. A. will be held some time in September. He will again contest the election in this constituency. Andrew Spence has also announced his intention of offering himself as a candidate for the same position.

William Boyd, who owns a large quantity of land in this part, has started to prove one of his claims—that on the north side of the Hill. Mr. Courtney is looking after his interests here, and has nearly broken up eighty acres of land. Mr. McKay has broken up nearly all the half section which was previously owned by Harry Ward.

Hugh McKay, lately of Scotland, has been up and made improvements on a quarter section west of the Hill.

The crops are in splendid shape, and the frost holds off for a few weeks. Everything will be safe, and the farmers will reap the most bountiful harvest that has been raised in this section. Wheat is particularly well advanced. Root crops and all kinds of garden vegetables are excellent.

The road work is not all completed yet, and will be until after harvest. Considerable dissatisfaction is felt and expressed over the manner of expending public money, and the small amount of work for the same, not to mention the workmanlike and incomplete appearance of the work.

Day school has re-opened after their vacation of two weeks.

Some of the ratepayers of Red Deer Hill and Willoghby, having become dissatisfied with the present state of affairs, are now trying to form a new school district, to comprise each of the above mentioned districts. Should they be successful in their efforts it will leave one of the old established districts in a very peculiar shape, which would be a very great injustice by the ratepayers of those old districts.

Messrs. Keyworth, Lathlan and Roberts, lately of England, have located south of the Hill.

COMMUNICATIONS.

It must be distinctly understood that we do not hold ourselves responsible for the opinions expressed by correspondents.

RAIL TO MONTREAL LAKE.

To the Editor of the Times.

Sir,—In last week's *Saskatchewan* I noticed a long article on the Montreal Lake trail, in which the editor intimates to the gentlemen who represent this district in the Local Legislature, that they should at once undertake the expenditure of money for the purpose of putting in repair for the benefit of the H. B. and a few people who still stick to fighting. As a farmer, I like to see newspapers working for trail improvements, for by such action our local representatives may be induced to take more interest in the work, but there is no reason for urging the importance of work being done on a trail every yard of which is in an almost uninhabited country. The man who wrote the article can have no knowledge of the hardships farmers have to undergo during wet seasons owing to the lack of improvements on trails in the more thickly settled portions of the district. Perhaps his knowledge of the needs of settlers is no greater than that of the country through which this tedious Montreal Lake trail passes. I know we have good country north of us, and I am glad to see that its valuable portions are not being neglected by your paper, and that our members have shown considerable energy in its development. If the editor of the *Saskatchewan* knew the country between here and Montreal Lake as well as I know it, I think he would write less about repairing it,

and devote a little space in assisting farmers already located and who are helping to make the country instead of advocating a large expenditure for the purpose of bridging swamps and muskegs miles away from any settlement. Although I opposed Mr. Betts at the last local election, I must say that so far as the western part of this district is concerned he has done good work, but much more is required, and our local papers should insist that needed works should be gone on with before they start agitating for unnecessary expenditures. The man who tills the soil, being of more importance to the future of the country than either the H. B. Co. or the freighters who handle their goods, is entitled to first consideration.

Yours, etc.,
FAIR PLAY.

CRICKET.

On Saturday last a very fine game of cricket was played between teams from F Division N.W.M.P. cricket club and the Prince Albert cricket club. The day was an excellent one for cricket. Wickets were pitched and the game commenced at 2 p.m., from which time to 7 o'clock good play was shown by both teams. The bowling of Donaldson for the Police and Agnew for the civilians would be hard to beat, while that of Sergt. Parker and Geo. Bird—although not so fortunate as the first named—was excellent. At the bat some good scores were made by both teams, but to Agnew belongs the doughnut, he making 41 in the one innings played by the town club. When the town players were ready for their second innings, it was found there was no time to play, as the game had been limited to 7 p.m., and was accordingly decided by the first innings, which gave the game to the P. A. club by a majority of twenty. The players and their scores were as follows:

THE NEW CANADIAN MAGAZINE.

Canadian Literary Monthlies have been short-lived; but *Canada*, the new one dollar magazine, has evidently come to stay. Since it was started in January, it has been enlarged and improved with almost every issue. Being broadly national and thoroughly patriotic, it draws its subscribers from all over the Dominion. Its articles are short and bright and all by Canadian writers or on Canadian themes. To those who remit one dollar before September 1st, the publisher will send *Canada* for eighteen months—from July 1891, to Dec. 1892. Address "Canada," Benton, New Brunswick.

Mr. Shea has erected an awning in front of his confectionery and tobacco store. Mr. Shea should remove the bark from the pole running across the posts, and it would then make an excellent gymnasium for the small boy in the evening. Think it over, Frank.

A Missionary meeting will be held in St. Alban's church this evening at 8 o'clock. His Lordship the Bishop will preside. Revs. Inkster, McDonald, Archdeacon J. A. McKay and Chief Atahkakoop will address the meeting. A special collection will be taken up at the close for the Indian Mission Fund.

Last Friday evening what might have been a serious robbery was happily frustrated by our young townsman Fred. W. Porter. About 3 o'clock Fred was awakened by some person or persons trying to force an entrance into the H. B. Co's west end store. Fred at once challenged the robber who made off when he declared his intention "to spot."

Mr. Hall arrived from Staffordshire, Eng., on Saturday's train, and will likely remain here this winter to test the climate and report to friends at home. So far Mr. Hall is of the opinion that Saskatchewan valley is the flower of the continent as far as his investigation has gone, and does not hesitate to predict a bright future for this country once it becomes known in quarters from which a desirable, experienced and practical class of farmers can be induced to emigrate and better themselves and families one hundred fold.

Now that the building of a Town Hall has been left in the hands of the Town Council, the selection of its exact location becomes an important question. We have a beautiful square, the Hall is to be built for the requirements of a number of years, but everyone realizes that in the future a more pretentious building will be required. The present one should be located well back on the property to allow of additions which may be needed in the future being erected in front of the one about being built.

On Thursday evening last an entertainment was given in the recreation room at the Barracks by the F Division minstrel club. The weather being rather warm for indoor amusements, the attendance was not so large as usually attended the efforts of the Police boys to cater to the fun loving residents of the town and district. A lengthy and well prepared programme had been gotten up for the occasion, and was successfully carried through. Many of the songs were good, while the hits—local and otherwise—were very good. Taken altogether, the evening's entertainment was quite enjoyable.

Mr. W. Perley, Winnipeg, general agent for the Canadian Mutual Loan & Investment Co., arrived in by Saturday's train, and at once set to work to organize a branch company in Prince Albert. Having secured a sufficient number of shareholders a meeting was held last evening for the purpose of organizing and the election of officers. The officers elected are:—R. Jardine, President; John Stewart, Vice-President; H. J. Montgomery, Sec.-Treasurer; J. McKay, Solicitor; T. E. Baker, Valuator. Directors—W. Knox, H. W. Newlands, J. E. Young, J. McTaggart, T. J. GOLDEN STORE

PROPRIETORS

Have Decided to Hold a Special Midsummer Clearing Sale.

SPECIALTIES:

All Light Summer Prints, Dress Goods, Hats, Clothing

At Cost, and Some Goods for Less than Cost.

All we want to do is to turn these goods into ready money, and our low prices will do it. You may ask how we can do this and pay expenses. Let us reason together for a moment. We have three or four reasons. First, you know, money is scarce and worth from ten to fifteen per cent. in this country. So you see it is better to give you a few lines at cost twice a year, rather than carry the goods over until next summer. We are going to invest the proceeds of this sale in Fall and Winter Goods at a small margin, which will be another benefit to you and us.

Second reason—We must make room for large consignments that will be received in a few weeks from European, Montreal and Toronto markets.

Third reason—Our prices are a panacea for the ills of hard times. We have no rent to pay, no clerks to pay, and our expenses are very, very small indeed.

Winning Points—Low Prices, Reliability, Fair Dealing, Great Variety, Golden Bargains, Honor.

We have no percentage of loss on credit sales to charge on the goods you buy. The sale is now going on. Give us a call and we will convince you who the real leaders in low prices are.
